
JPIC PRESENTS: **Awakening the Dreamer,** **Changing the Dream** Symposium

Where on earth are we going?
And what can we do about it?

A Special Invitation:

Please join us for the *Awakening the Dreamer* Symposium!

The purpose of the *Awakening the Dreamer* Symposium is to become awake and engaged in the most vital conversation of our time: creating a sustainable, just, and spiritually fulfilling human presence on our planet. DVD presentations, processing, and personal reflection will structure our time together. Come and join with others who want to make a difference!

Bring friends from your place of ministry who will join us in this wonderful work! Experience the symposium together. If you think a symposium would benefit your place of ministry, we can arrange an on-site presentation for you.
